## Foreword

---

**Prishtina, 26 December 2023:** The Kosovo Agency of Statistics (KAS) - the Department of Economic Statistics has released the data of the Industrial Production Statistics (PRODCOM) in 2022.

Research on industrial production is conducted in businesses of Mining B and Manufacturing C and aims to provide information on the production and sale of industrial products produced in our country.

This research was conducted according to the List of Industrial Products at a detailed 6-digit level, which is used in the countries of the European Union

**Publication was prepared by:**

Ilir T. Berisha - Director of Department of Economic Statistics

Dafina Kumnova- Officer for Business Statistics

Guxim Neziri-IT Officer

December, 2023

Acting Chief Executive Officer, KAS  
Mr. Avni Kastrati

Production and sale of major industrial products.....	10

## Methodology

The Survey of Industrial Products (PRODCOM) is an annual survey, the purpose of which is to collect and disseminate statistics on the production and sale of industrial products produced in the Republic of Kosovo.

The purpose of the statistics is to report, for each product on the PRODCOM List, how much was produced in our country during the reference period, this means that the PRODCOM Statistics are about products (not activities) and therefore are not comparable to activity-based statistics. The NACE codes on which the PRODCOM codes are based simply serve to identify the establishments that should be surveyed to determine the amount of production of the product.

PRODCOM covers the Sector of Mining Industry and Manufacturing Industry, namely sectors B and C, as well as E 32.00 (NVE Rev.2). The 6-digit codes used in the PRODCOM List are derived from the 6-digit CPA headings and thus from the 4-digit NACE. This research is based on the PRODCOM classification, which contains about 4000 different types of products, which is used in the countries of the European Union:

- EU regulation 2019/2152 on European business statistics (EBS regulation).
- Implementing regulation 2020/1197 that defines specifications and technical arrangements.
- The list of PRODCOM which was created based on a special Regulation.

### **PRODCOM's key indicators:**

**The produced quantity** of the product includes the production of products realized by the enterprise for the reference year.

**The quantity of the product sold** includes the production of the products realized by the enterprise depending on the time of production but which was sold in the reference year.

**The value of sales** includes the amount invoiced from the sale of industrial products during the reference year, excluding value added tax or VAT.

### **Symbols:**

- Data not available

## Production and sale of major industrial products

PRODCOM code at 6-digit level	Description of product	Unit of measur	Quantity produced	Sale value
071010	Extraction of iron ore	Tons	707 548	9 378
081111	Marble and other decorative and building limestone	Tons	442 414 530	118 577 487
081120	Limestone and gypsum	Tons	312 054	977 571

## Kosovo Agency of Statistics: short description

---

**Kosovo Agency of Statistics** is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 12.12.2011 the Agency operates in the frames of the Prime Minister's Office. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

**Kosovo Agency of Statistics** acts according to the Law No. 04/L-036 which entered into force on 12.12.2011. Strategic development plan 2018-2022 is being implemented for the development of the statistical system in correlation with the Statistics of the European Community (EUROSTAT).

**Kosovo Agency of Statistics** has this organizational structure: statistics production departments; (Department of Economic statistics and National Accounts, Department of Population statistics, Department of Agriculture and Environment statistics and Department of Social statistics. Support Departments; (Department of Methodology and Information Technology, Department of Administration. Within the Agency we also established Office of the Population Census, Huseholds and Dwellings. Regional Offices; Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

A total of 156 workers are employed, of them, 115 at the headquarters of the Agency, while 41 at the Regional Offices. KAS has the following qualification structure: 123 with university education, 15 with higher education, while 18 with secondary education.

We have professional and technical cooperation with all ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNIVEF, and with the statistical institutions of the countries in the region.

**Kosovo Agency of Statistics** almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population and Housing Census was successfully conducted, while in 2014, the Agriculture Census was also successfully conducted. The results obtained from these censuses will have an important role for the policy development.

**The mission of the Agency;** to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level.
