Foreword

The Kosovo Agency of Statistics (KAS) has prepared a publication with data on Road, Rail and Air Transportation. This statistical publication presents data on an annual basis, covering the period from 2015 to 2025, and provides a clear overview of developments in each transport mode.

The main purpose of this publication is to present the development trend of the transport sector and its impact on the country's economy. Through data analysis, users can observe the main changes and developments that have occurred during these years, making planning and decision-making based on facts easier.

We believe that this publication will serve as a useful reference base for all users of KAS statistical data. It provides valuable economic information and relevant data that can be used for sector analysis, development policies and strategic decision-making in Kosovo.

You can send your proposals, suggestions and comments to the official address: infoask@rks-gov.net

The publication was prepared by:

Ilir T. Berisha - Director of the Department of Economic Statistics

Bekim Bojku - Head of the Economic Statistics Division

Qendresa Shala Sopaj – Officer for Transportation and Telecommunication Statistics

Shqipe Zubaku - Officer for Enterprise Statistics

February, 2026

Executive Director, KAS

Mr. Avni Kastrati

Buses	2,124	1,916	1,949	2,326	2,135	1,794	2,091	2,257	2,348	2,616	2,135
Motorcycles	1,849	1,790	1,690	2,038	2,087	1,694	2,647	1,148	5,379	7,967	9,916
Tractors	941	613	523	1,791	1,851	641	781	4,289	2,117	2,533	3,500
Trailers under 3.5 t.	286	288	288	572	681	297	369	443	612	791	1,024
Trailers 3.5 and over 3.5 t.	2,707	2,628	2,735	305	271	3,101	3,344	3,482	3,739	4,311	4,667
Total	342,142	319,615	334,440	343,631	355,829	356,962	397,935	420,786	460,105	518,861	546,551

For the year 2025, the structure of registered motor and non-motor vehicles is dominated by cars, with a dominant percentage of 78.07%. Transport vehicles under 3.5 tons constitute 12.42%, while those over 3.5 tons are only 5.33% of the total. Buses and vans occupy a small share, respectively 0.39% and 0.29%, while motorcycles represent 1.81%. Tractors and trailers have a minimal percentage, with 0.64% for tractors, 0.19% for trailers under 3.5 tons and 0.85% for trailers over 3.5 tons.

Fig: 4. Registered motor and non-motor vehicles in 2015-2025

3.4 Roads of Kosovo

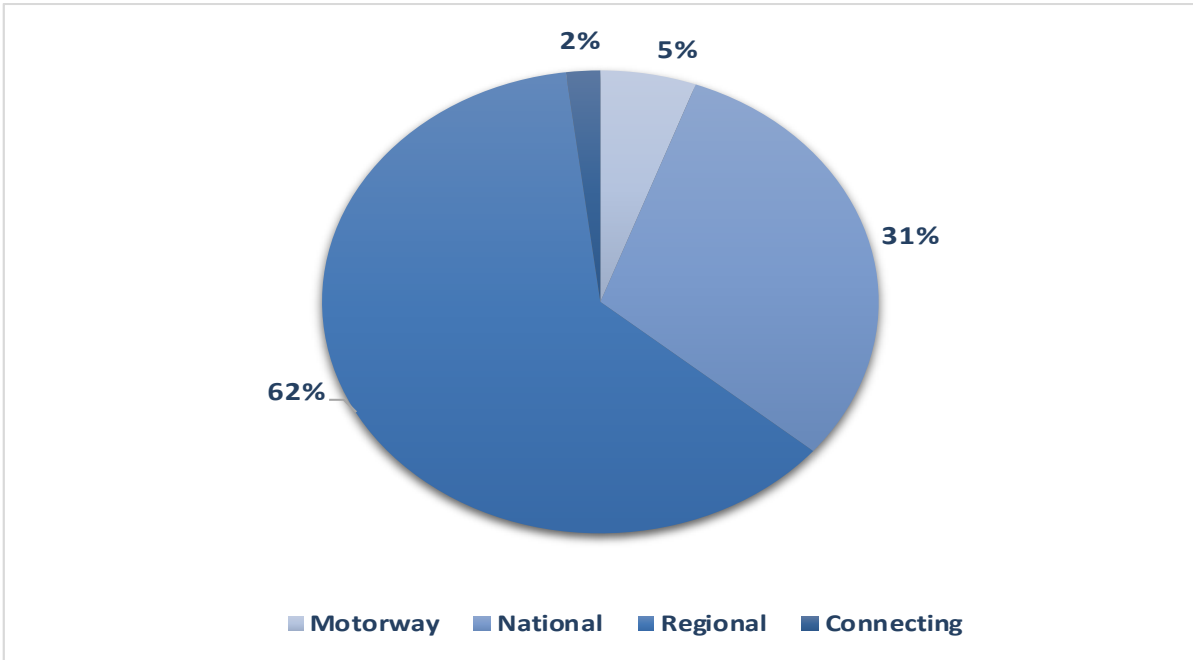

During 2025, the total length of roads in Kosovo has increased, reaching 2,463 kilometers, compared to 2,434 kilometers in 2024. This indicates an expansion of 29 kilometers, corresponding to an increase of 1.19% in the country's road infrastructure.

Tab: 4. The length of roads of Kosovo by category in km, 2015-2025

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Motorway	78.0	98.0	108.0	119.1	137.15	137.15	137.15	137.20	137.20	137.20	137.20
National	630.4	630.4	630.4	641.7	665.17	753.44	753.44	753	753	753	753
Regional	1,305.0	1,305.0	1,305	1313.9	1471.24	1494.93	1494.93	1495	1495	1495	1524
Connecting					38.11	46.88	46.88	48.8	48.8	48.8	48.8
Total	2,013.4	2,033.4	2,043.4	2,074.7	2,311.67	2,432.40	2,432.40	2,434.00	2,434.00	2,434.00	2,463.00

According to the data presented, it can be observed that in 2025, in the territory of Kosovo we have 2,463 km, where in the category of Motorway there are 5%, National 31%, while 62% are Regional and 2% are Connecting roads.

Fig: 5. Structure of roads in Kosovo by category in %

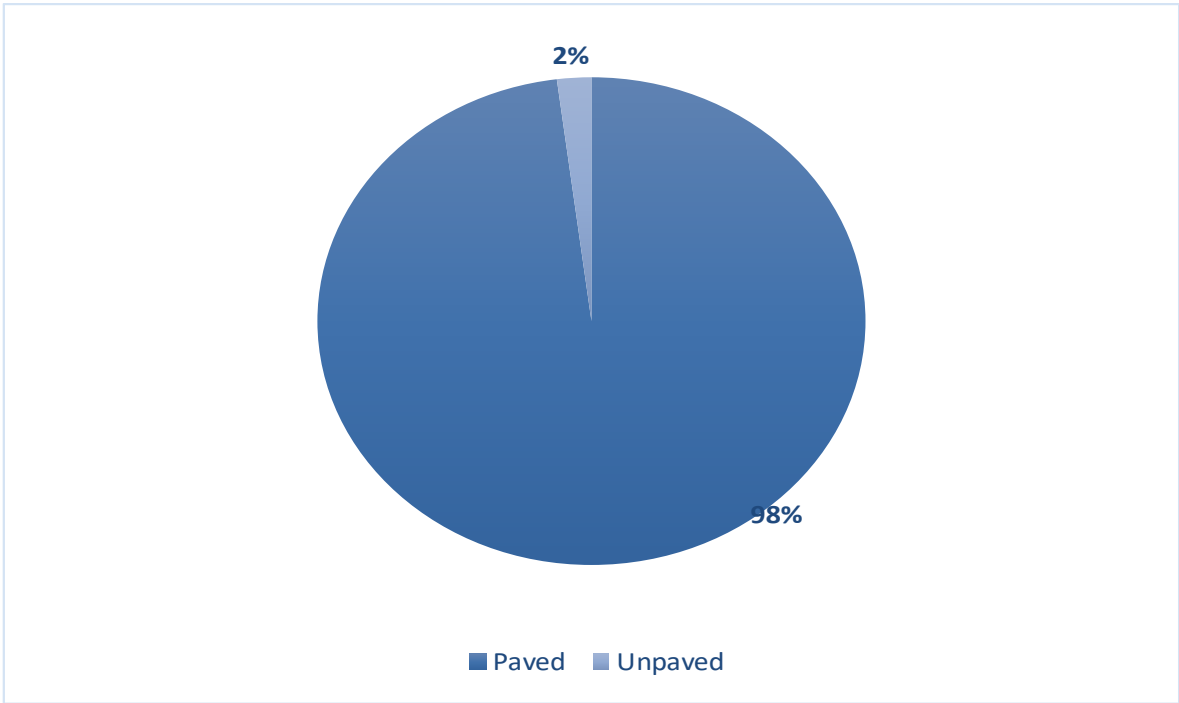

Tab: 5. Kosovo roads paved and unpaved in kilometers (km), 2015-2025

Year	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Paved	1,923.4	1,943.4	1,953.4	1979.3	2,210.67	2,346.86	2,345.86	2,384.26	2,384.26	2,384.26	2,413.30
Unpaved	90.0	90.0	90	95.4	101	85.54	86.54	49.74	49.74	49.74	49.74
Total	2,013.4	2,033.4	2,043.4	2,074.7	2,311.67	2,432.40	2,432.40	2,434.00	2,434.00	2,434.00	2,463.04

From the table above, it is noted that in 2025, out of a total of 2,434 km of roads, 2,384 km or expressed as a percentage 98% are paved roads, while 49.74 km or 2% of the roads are unpaved.

Fig: 6. Structure of roads in Kosovo by category

4. Methodology and definitions

4.1 Sources

Transport and Telecommunication statistics are based on administrative sources. The data sources are the International Airport of Prishtina "Adem Jashari" - LIMAC, Kosovo Railways TRAINKOS Sh. A, RAILTRANS ShPK, ARC - Civil Registration Agency (Department for Vehicle Registration) and Ministry of Infrastructure (Department for Roads).

4.2 Coverage

The annual data used for publication are from the year of 2015 to 2025 for air transport, rail transport, and road transport.

4.3 Definitions

Public road - a public road that serves only for movement of motor vehicles, which is marked with a special traffic sign and which has two road sections physically separated for movement from the opposite direction. The road strip must have at least two traffic lanes of a width of at least 3,5 meters, depending on the configuration of the terrain, and with an emergency stop bar on both sides of the road, with a width of at least 2,5 meters;

Motorway – a public road particularly built and designated for the movement of motor vehicles, marked with special traffic signs, having carriageways physically separated for the movement in opposite directions of lanes of a width of at least 3,5 meters, due to the terrain configuration, with one lane for emergency stops in both sides of the motorway of width of at least 2,5 meters

National road - a public road officially ranked as a national road linking two or more towns and which may serve as a link to regions outside Kosovo;

Regional road - a public road which connects important economic centers of two or more regions.

Local road - a public road officially categorized as a local road that connects habitable spaces within a settlement in the municipality;

Urban road - a public road that connects habitable spaces within a municipality settlement.

Uncategorized road - a road not designated as a public road, but used for traffic such as a road for forests utilization, accumulative lake road, and road for agriculture destination and similar.

Connecting road - public road that connects settlements with railway stations, roads to the airport, health spas, recreation centers, national parks and the like.

Tonne - kilometer (t km) - the unit of the transport of freight that represents the transport of one tonne of goods over a distance of one kilometer.

The distance to be covered is the distance that is currently traveling to the reviewed network. To avoid double counting, each country must count only t km that is carried out in its territory.

About the Kosovo Agency of Statistics

Brief description

Brief history - The Kosovo Agency of Statistics (KAS) is a professional and independent institution that deals with the collection, processing and publication of official statistical data at the national level. Established since 1948, KAS has gone through various development phases, operating in accordance with the state structures of the time.

After an interruption in the period 1989–1999, KAS resumed its activity on August 2, 1999 as an independent institution within the Ministry of Public Administration. From July 1, 2020, for almost two full years, it operated within the Ministry of Finance, Labor and Transfers. It currently operates within the Office of the Prime Minister of the Republic of Kosovo. KAS is funded by the Budget of the Republic of Kosovo and by international donors for specific projects and technical assistance.

Legislation: KAS operates under Law No. 04/L-036 on Official Statistics and relevant amendments through Law No. 06/L-058. The organizational structure includes Production Departments such as the Department of Economic Statistics, the Department of National Accounts, the Department of Social Statistics, the Department of Agricultural and Environmental Statistics, supporting Departments such as the Department of Methodology and Information Technology, the Department of Policy, Planning, Coordination and Communication, the Department of Enumerations and Survey, the Department of Administration. Within the framework of the Agency, Regional Offices also operate in: Prishtina, Prizren, Peja, Gjakova, Gjiilan, Ferizaj and Mitrovica.

KAS Mission - To provide qualitative and reliable statistical data to all users - government institutions, the academic community, the private sector and the general public - in support of decision-making, planning and policy development at all levels.

KAS Objective - To produce and disseminate statistical data in a systematic, reliable and impartial manner. Including professional use and ethical standards, i.e. that policies and practices are transparent to users and survey respondents.

KAS Vision - To be the main and most reliable source of official statistics in Kosovo, in accordance with international standards, supporting decision-making, transparency and sustainable development of the country.

Cooperation - The Kosovo Agency of Statistics cooperates with all Ministries of the Government of Kosovo, especially with the Ministry of Finance, Labor and Transfers, as well as the Central Bank of Kosovo, which constitute the Statistical System of Kosovo. The Agency also has close cooperation with international organizations such as: EUROSTAT, IMF, World Bank, INSTAT, SIDA, DFID, UNFPA, UNDP, UNICEF, VIIES, IMF, ILO STAT, UNODC, ETF, IA, OECD, as well as with statistical institutions in the region.

During 2024, the Population and Housing Census in Kosovo was successfully conducted - a key project for the design of sustainable development policies.

KAS covers the entire territory of the Republic of Kosovo through a network of reporting units and statistical enumeration areas, providing first-hand data in accordance with international standards.
