F o r e w o r d

Publication of Health Statistics provides information on health in the public sector and some data for the private sector. The data source is the Ministry of Health (MoH), UCHSK Directorate, the National Institute of Health (NIH) and the Association of Private Institutions in Kosovo.

This publication contains the following data:

Number of health institutions, the total number of employees in health sector by educational qualification and gender,
Chambers of health workers in the Republic of Kosovo,
Primary Health Care (PHC) by department and municipality,
Activities of general hospitals in the Republic of Kosovo,
Number of persons infected with COVID-19, by age, place of living, gender, etc.
Activities of the University Clinical Centre of Kosovo (UCCK),
Basic indicators of hospitalization,
Pre-clinical services,
Malignant diseases, their number by age group, etc.
Oncology services provided and the number of people affected with malignant diseases,
TB patients,
Infectious diseases,
Health Insurance in Kosovo,
Number of licensed private health institutions, and
Activity of private hospitals.

This publication will serve as useful information in the field of health in Kosovo.

Avni Kastrati - Director of the Department of Social Statistics

Naime Rexhepi – Head of the Division of Social Statistics

This publication was prepared by:

Luljeta Selimi – Senior Officer for Health Statistics

Ahmet Cakolli – Design Officer

We invite all users of this publication to provide comments, remarks and suggestions at this address:

Kosovo Agency of Statistics

short description

Kosovo Agency of Statistics is a professional institution which deals with collection, processing and publication of official statistical data. As such acts since 1948 and has passed through several historical stages, structured according to state regulation of those times.

On 2 August 1999, the Agency has resumed his professional work (after nine years of interruption of all statistical series detrimental to the interest of Kosovo), as an independent institution under the Ministry of Public Administration. Since 01.07.2020 the Agency operates in the frames of the Ministry of Finance, Labor and Transfers. Office is funded by the Kosovo Consolidated Budget, but also by donors for specific projects and for technical professional support.

Kosovo Agency of Statistics acts according to the Law No. 04/L-036 which entered into force on 12.12.2011 and Amendment of Law No. 06/L-058 which entered into force on 17.01.2019 . Programme of Official Statistics 2018/2022 is in implementation for the development of statistical system in correlation with the European Union statistics (EUROSTAT).

Kosovo Agency of Statistics has this organizational structure: production departments; Department of Economic statistics, Department of National Accounts, Department of Agriculture and Environment statistics and Department of Social statistics. **Support Departments**; Department of Methodology and Information Technology, Department of Policy Planning, Coordination and Communication, Department of Census and survey and Department of Administration. **Within the Agency are also established Regional Offices**; Gjakove, Gjilan, Mitrovica, Peja, Prizren, Pristina and Ferizaj

In KAS are employed in total 156 workers, of whom 115 at the headquarters of the Agency, while in the Regional Offices, 41. Agency's educational qualifying structure is as follows: 123 with university education, 15 with non-tertiary education, and 18 with secondary education.

We have professional and technical cooperation with all Ministries of the Government of Kosovo, especially with the Ministry of Economy and Finance, Central Bank of Kosovo, with international institutions, EUROSTAT, International Monetary Fund, World Bank, Sweden's SIDA, DFID, UNFPA, UNDP, UNVEF, and with the statistical institutions of the countries in the region.

Kosovo Agency of Statistics almost completely covers the territory of Kosovo, based on the statistical structure of the enumeration areas as the basic unit and sole in the country from which it gets first hand information. All surveys conducted in the field use the extension of the samples in these enumeration areas but also a statistical methodology according to international recommendations. During the collection of statistical data and reports from reporting entities are involved professionals, technicians, administrators, servants of the country offices, field enumerators from regional offices, etc.

In 2011, the project of Population Census , Households and Dwellings was successfully implemented, and in 2014 was successfully carried out the Agriculture Census. The result obtained from these censuses will have an important role in the development policies.

The mission of the Agency; to meet the needs of users with qualitative statistical data, objective, in time and space so that users have reliable base to conduct regular analysis in the interest of planning and project development at the municipal and country level. To support government institutions, scientific institutes, research academies, businesses in order to provide proper information for decision-makers and other users in Kosovo.
